BGY40

Unlock Performance that Shines™

Crafted from premium yeast using the proprietary Emmert Method™, BGY40™ is specially formulated to enhance flavor and nutrients for high-performing pet food and treats.

The Emmert Promise in Action

When pets thrive, you can see it – they shine from the inside out. BGY40™ sets the industry standard for nutritional brewers yeast, and is one of the original formulas using the exclusive Emmert Method™. Our proven technique maintains the nutritional benefits of brewers yeast while enhancing palatability with natural flavors. BGY40™ can help improve digestion by supporting gut function and a healthy immune system through essential amino acids, beta-glucans, B vitamins, trace minerals and other nutrients that promote overall wellness and vitality.

Legacy of Superior Quality & Exceptional Results

F.L. Emmert is a leading supplier of nutritional brewers yeast for companion animal diets with products that stand the test of time. The proprietary Emmert Method™ preserves high-quality nutrients in premium USA-sourced brewers yeast while enhancing palatability with natural flavors. Family owned and operated since 1881, the company's sixth generation continues to deliver Performance that Shines™ with a legacy of integrity and service. Through exceptional quality and food safety standards, trusted partnerships, and innovative product excellence – with Emmert, there's a difference you can see.
