Essential nutrients to support overall wellness and vitality

USA-sourced and manufactured at an SQF-certified facility in Cincinnati, Ohio

For further manufacture of pet food and treats

BGY ADVANTAGE

Unlock Performance that Shines™

Crafted from premium yeast using the proprietary Emmert Method™, BGYADVANTAGE™ is Emmert's flagship brewers yeast ingredient. It's made specifically for optimal companion animal diets.

The Difference You Can See

When pets thrive, you can see it and feel it – they shine from the inside out. BGYADVANTAGE™ is the result of the proprietary Emmert Method™, maintaining the nutritional benefits of brewers yeast while enhancing palatability with its natural flavors. BGYADVANTAGE™ can help improve digestion by supporting gut function and a healthy immune system through essential amino acids, beta-glucans, B vitamins, trace minerals and other nutrients that promote overall wellness and vitality.

Legacy of Superior Quality & Exceptional Results

F.L. Emmert is a leading supplier of nutritional brewers yeast for companion animal diets with products that stand the test of time. The proprietary Emmert Method™ preserves the high-quality nutrients in premium USA-sourced brewers yeast while enhancing palatability with its natural flavors. Family owned and operated since 1881, the company's sixth-generation continues to deliver Performance that Shines™ with a legacy of integrity and service. Through exceptional quality and food safety standards, trusted partnerships, and innovative product excellence – with Emmert there's a difference you can see.
