BGY35

Unlock Performance that Shines™

Crafted from premium yeast using the proprietary Emmert Method™, BGY35™ is an industry benchmark for nutritional brewers yeast, with decades of proven performance in top pet food formulas.

The Emmert Promise in Action

When pets thrive, you can see it and feel it – they shine from the inside out. BGY35™ is the original brewers yeast made for pet foods using the exclusive Emmert Method™. Our proven technique maintains the nutritional benefits of brewers yeast while enhancing palatability with natural flavors. BGY35™ can help improve digestion by supporting gut function and a healthy immune system through essential amino acids, beta-glucans, B vitamins, trace minerals and other nutrients that promote overall wellness and vitality.

Legacy of Superior Quality & Exceptional Results

F.L. Emmert is a leading supplier of nutritional brewers yeast for companion animal diets with products that stand the test of time. The proprietary Emmert Method™ preserves the high-quality nutrients in premium USA-sourced brewers yeast while enhancing palatability with natural flavors. Family owned and operated since 1881, the company's sixth generation continues to deliver Performance that Shines™ with a legacy of integrity and service. Through exceptional quality and food safety standards, trusted partnerships, and innovative product excellence – with Emmert, there's a difference you can see.
