### Food Safety and Certification

- AAFCO Approved
- Our facilities are GFSI Certified, USDA Registered and FDA Registered
- Non GMO
- rBST-Free
- EU Compliant
- Kosher and Halal Certified
- Made in the USA

Hilmar **PROtelyze** Pet is a proprietary formulation of whey protein specially formulated to extend and improve the quality of life for pets. It is an ideal ingredient for formulating into your pet food, treats and supplements to improve and maintain body composition in canines as they age. Hilmar **PROtelyze** Pet is highly digestible and provides functional properties for use in your pet food and treat applications like heat stability and high solubility.

### Proven Results from Independent Study

The healthy aging benefits of Hilmar **PROtelyze** Pet were documented in an independent, 26-week study that focused on the effects of exercise and dietary protein supplementation on the healthful aging of senior Labrador Retrievers. The clinical research compared Hilmar **PROtelyze** Pet (whey), hydrolyzed pea protein isolate and a control group with proteins matching the whey and pea diets. The Hilmar **PROtelyze** Pet group outperformed the pea and control groups in every important measure.

### STUDY RESULTS

- Significant retention in lean muscle mass
- Improved lean-to-fat ratio
- Higher activity levels and improved gait scores
- Lower inflammation levels, even after exercise

**For full study results, contact Hilmar at 209.667.6076.**
