## HOW WE WORK

We consult directly with you and demonstrate our products. We then develop a customized solution to your needs and prove it will work.

## OUR SOLUTIONS

The most advanced surface cleaning and sanitation solutions in the market.

## OUR PROMISE

We deliver the best after sales service in the industry.

# DRY STEAM CLEANERS

## GVC-18000

Our most popular steam cleaner is ideal for most manual deep cleaning and sanitizing applications in food production plants. The low 5% moisture content lends itself to cleaning around sensitive electrical components and in dry clean areas. At 290°F, the dry steam melts away fats and sugars, and kills bacteria and other microorganisms on contact. Multiple cleaning tools are perfect for all of your flat surfaces as well as the cracks and crevices that are often ideal for the growth of bacteria and mold.

**HEATING POWER:** 18kW

**STEAM PRODUCTION:** 59 lbs/hr

## GVC-36000

We've paired the convenience of mobility with the power one would expect from a stationary unit. Take on virtually any large scale cleaning project with nearly 0.25 gallons of dry saturated steam per minute.

**HEATING POWER:** 36kW

**STEAM PRODUCTION:** 118 lbs/hr

## GVC-72000

The GVC-72000 is a 72KW heavy-duty dry steam cleaner that provides the ultimate in cleaning for your facility. It supports 1-2 hoses, can run multiple belt cleaning attachments simultaneously and is completely customizable.

**HEATING POWER:** 72kW

**STEAM PRODUCTION:** 265 lbs/hr

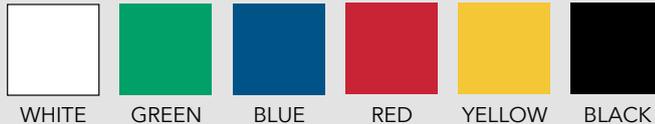

# ACCESSORIES **COLOR-CODED BRUSHES**

## 93-BRUSH

We offer a variety of brushes, including our color coded brush system. These brushes are made with FDA approved materials and come in a variety of bright colors. Using our color coded brushes prevents cross contamination, ensures food safety and eliminates concerns of foreign material entering your product stream.

### BRUSH COLORS

# APPLICATION DRIVEN STEAM TOOLS

## 93-KIT0934 SPINNER

93-KIT0934 spinner allows for cleaning of floors in hard to reach areas, where water use has to be minimized.

## 93-KIT0936 SCRAPER

93-KIT0936 scraper combines the power of steam with a scraper attachment for the most aggressive cleaning.

## 93-KIT0935 DRAIN TOOL

93-KIT0935 drain tool is placed over a drain to raise the temperature inside and sanitize the drain.

# DRY STEAM BELT CLEANING SYSTEMS

# PORTABLE BRUSH/BRUSHLESS SYSTEM

Reduce cleaning time, remove allergens, and extend production time. Unique belt cleaning system cleans flat, solid belts in place automatically with dry steam and vacuum extraction, leaving belts clean, dry, sanitized and allergen free.

# DRY STEAM BELT CLEANING SYSTEMS

# FIXED BRUSH/BRUSHLESS SYSTEM

Effortlessly clean and sanitize flat, solid belts continuously during production. Safe, robust and hygienic design which can be turned on to clean, sanitize and remove allergens any time 24/7.

# DRY STEAM BELT CLEANING SYSTEMS

# PORTABLE JET SYSTEM

Clean and sanitize open mesh belts in dry environments, without removing the belt. Perfect for areas where wet cleaning has to be avoided, such as post bake bread production. No drying time required and no wastewater generated.

# VACUUM INDUSTRIAL CLEANING SYSTEMS

# HIGH PERFORMANCE VACUUMS

Maximize cleaning productivity and keep people cleaning without downtime, plus prevent cross-contamination, shorten cleaning times and ensure worker safety. Goodway high performance vacuums feature a roll-out collection drum and external filter shaker, superior suction, color coded vacuum tools, superior two stage HEPA filtration and extra large pocket filter. Our explosion proof offerings include complete electrical grounding and UL explosion proof rating.

# VACUUM INDUSTRIAL CLEANING SYSTEMS

## DV-3-SSH

Ideal for the dry food processing industry, the DV-3-SSH stainless steel HEPA vacuum features three heavy-duty motors, delivering an airflow of 286 CFM and 81" of static water lift. Vacuumed dry debris passes first through a 3 micron efficient polyester pocket filter with expanded surface area and then through a HEPA certified 0.3 micron cartridge filter. It is the perfect choice for the recovery of fine dry material like whey, cheese, flour, sugar, tea and coffee dust.

**ELECTRIC  
STAINLESS STEEL  
14 GALLONS**

## DV-AV9-EX

Facilities with cleaning needs in explosive environments can depend on the compact DV-AV9-EX to safely get the job done. This UL Certified air-powered vacuum cleaner is fitted with a HEPA filter for capturing 99.99% of particles down to 0.3 micron and a 1-micron anti-static pocket pre-filter. The DV-AV9-EX external filter shaker, on-board tool storage basket and detachable tank completes its features.

**AIR POWERED**

**9 GALLONS**

# **BIOSPRAY<sup>®</sup>** SURFACE SANITATION SYSTEM

# PORTABLE SYSTEM FOR SANITATION

## BIOSPRAY®

The BIOSPRAY surface sanitation system from Goodway Technologies is a patented, portable system for faster, safer and more efficient sanitizing in your dry food production environment. The cordless BIOSPRAY system uses an advanced CO2 delivery technology to safely apply BioSpray D2 food contact surface rated sanitizer in a continuous, fine spray. No power is ever needed!

**SAFE FOR WATER SENSITIVE EQUIPMENT**

**KILLS 99.999% OF BACTERIA**

**NO-RINSE, FAST DRYING FORMULA**

*BioSpray D2 surface sanitizer is NSF listed and EPA registered.*
