

The Plant-Based Alpha Dog of Omegas

Boost your next omega-infused pet product with plant power.

Omega fatty acids are an important part of a pet’s healthy balanced diet. These fats are crucial for cell membrane integrity, help support a healthy inflammatory response, provide energy and contribute to healthy skin and a silky coat.* Unfortunately, prepared pet foods often contain too much of the omega-6, linoleic acid (LA) and are deficient in the omega-3s as well as

the important omega-6 – gamma linolenic acid (GLA). Ahiflower® provides the perfect answer for your canine and equine family members, supplying an advantageous group of omega-3s and beneficial omega-6s in a ratio of almost 4:1, (omega-3 to omega-6) helping to offset the imbalance created by the typical pet food diet.

Ingredient Overview

Ahiflower seed oil is a pure, plant-based oil that provides a uniquely balanced daily omega with an unparalleled combination of omega-3, 6, 9 fatty acids, essential for health, vitality and wellness.

- Sport Dog Nutrition
- Cardiovascular Health
- Vegan & Vegetarian
- Skin/Coat Care

Better Than Flax

Up to 4X more effective than flax-seed oil as a source of omega-3.*

Not from Fish

Vegan and helps reduce pressure on fish populations.

Sustainable

Sustainably cultivated and fully traceable.

No Fishy Taste

Clean-tasting. No fishy burps.

Coat Health

Unlike fish and flax, Ahiflower contains gamma linolenic acid (GLA), an omega-6 associated with skin and haircoat health and a healthy inflammatory response.*

Ahiflower improves omega-3 fatty acid blood levels better than flax and corn in standard bred race horses (70 day trial)*

Differences in total blood omega-3 fatty acids

Applications

- Powders
- Chews
- Tablets
- Treats
- Food
- Jerky
- Liquids
